

Football predictions

Fri 11 Sep 2026 to Sun 13 Sep 2026 | 158 fixtures | all kick-off times in EAT | generated Fri 11 Sep 2026, 14:54 EAT

How these were produced. A Dixon-Coles bivariate Poisson model fitted per league on 23,275 matches of results, weighted so recent games count more, blended with a second model fitted on shots on target. Where a closing price exists it is de-vigged and folded in at 90% weight. Every market below is read off one scoreline distribution per fixture, so no two numbers on a row can contradict each other.

What this is not. Over 5,948 walk-forward tests this engine scores a log-loss of 0.9568 against the bookmakers' closing consensus at 0.9558 - it matches the market, it does not beat it. Betting the model's disagreements with the price lost 12.2% of stakes over 3,761 historical bets. Treat these as calibrated estimates of how likely things are, not as tips with an edge.

CAF Champions League | first preliminary round, return legs | 9

Priced through an African country bridge measured from 199 CAF club matches (2023/24-2024/25), which beat having no bridge by 5.8% out of sample. CAF home advantage measures +0.59 - nearly double Europe's - so the return leg at home is worth a great deal. A club from a league loaded here is rated from its own results; a club from a federation with no loaded league is rated as an **average club of that federation**, from its CAF record alone. No prices exist for these, so every number is the model unaided.

Date	Time (EAT)	Match	1	X	2	Score	xG	Home rated from	Away rated from
Sat 12 Sep	16:00	Young Africans SC v Gaborone United	99%	1%	0%	4-0	4.88 - 0.16	NBC Premier League	BOT fed. (6 CAF ties)
Sun 13 Sep	16:00	Simba SC v Mighty Wanderers	90%	8%	2%	2-0	2.94 - 0.27	NBC Premier League	MWI fed. (6 CAF ties)
11-13 Sep	TBC	Al Hilal v Aigle Noir	71%	21%	8%	1-0	1.90 - 0.49	SDN fed. (28 CAF ties)	BDI fed. (4 CAF ties)
11-13 Sep	TBC	TP Mazembe v Medeama SC	70%	20%	10%	1-0	1.89 - 0.54	COD fed. (27 CAF ties)	Ghana Premier League
11-13 Sep	TBC	Zamalek v AS Port	91%	7%	2%	3-0	3.27 - 0.36	Egyptian Premier League	DJI fed. (2 CAF ties)
11-13 Sep	TBC	Pyramids FC v Gor Mahia FC	79%	16%	5%	2-0	2.20 - 0.40	Egyptian Premier League	Kenyan Premier League
11-13 Sep	TBC	Orlando Pirates v La Cure Waves *	79%	14%	7%	2-0	2.30 - 0.48	South African Premiership	MRI fed. (no CAF ties)
11-13 Sep	TBC	ASEC Mimosas v ASCK	58%	27%	15%	1-0	1.49 - 0.62	CIV fed. (22 CAF ties)	TOG fed. (4 CAF ties)
11-13 Sep	TBC	Atletico Petroleos v UD do Songo	69%	22%	9%	1-0	1.82 - 0.51	ANG fed. (26 CAF ties)	MOZ fed. (6 CAF ties)

Who goes through. The first-leg score is carried into the second leg's scoreline distribution. Level on aggregate after 90 minutes is shown on its own rather than resolved, because it goes to extra time and penalties, which this engine does not model.

Tie (second leg)	First leg	Through in 90 min	Level - extra time / pens	Out in 90 min
Young Africans SC v Gaborone United	Young Africans SC scored 1, Gaborone United scored 1	99%	1%	0%
Simba SC v Mighty Wanderers	Simba SC scored 1, Mighty Wanderers scored 0	98%	1%	0%

* No CAF record at all for that federation in the data, so it is rated as an average CAF entrant - which almost certainly flatters it. Blind test before publishing: on the first legs, played after all of this data, the model gave Simba 65% to win in Lilongwe (they won 0-1, the likeliest single score) and Young Africans 88% in Gaborone (it finished 1-1, a one-in-ten outcome). Extreme home numbers for Simba and Young Africans are consistent with their own CAF home record against small federations - 5-1, 6-0 and 6-0 - but no football match is really 99% certain.

Where the model disagrees with the price

These are the fixtures where the model's own view - before any price was folded in - differs most from the bookmakers. They are shown because a disagreement is the interesting part of a forecast, not because they are good bets. Historically this exact filter lost money. The model column is the pure model; the price column is the de-vigged closing consensus.

Match	League	Selection	Model	Price implies	Difference	Decimal odds
Swansea v Burnley	Championship	Away	62%	29%	+33 pts	3.23
York v Swindon	League Two	Away	36%	19%	+17 pts	4.82
Samsunspor v Corum	Super Lig	Home	60%	43%	+17 pts	2.14
Excelsior v Utrecht	Eredivisie	Away	49%	32%	+17 pts	2.86
Derby v Birmingham	Championship	Home	44%	28%	+15 pts	3.33
Halifax v Hornchurch	National League	Home	61%	46%	+15 pts	2.04
Getafe v La Coruna	La Liga	Home	55%	40%	+15 pts	2.40
Crystal Palace v Ipswich	Premier League	Home	65%	51%	+14 pts	1.84
Westerlo v Standard	Jupiler Pro League	Home	53%	39%	+14 pts	2.40
Amedspor v Buyuksehyr	Super Lig	Away	49%	35%	+14 pts	2.55
Sutton v Scunthorpe	National League	Away	46%	32%	+14 pts	2.84
Eyupspor v Rizespor	Super Lig	Home	36%	23%	+13 pts	3.81

A large difference usually means the model is missing something the market knows: an injury, a suspension, a rotated side, a manager change. It reads only results and shots.

Coverage this weekend

Scotland. The Scottish Premiership has no matches this weekend. Its next round is Tuesday 15 September: Falkirk v Hearts, Hibernian v Kilmarnock and Motherwell v Aberdeen. Scotland's three lower divisions do play this weekend, but they are not loaded here.

Tanzania. The NBC Premier League 2026/27 season has not started, so there is no domestic Tanzanian fixture this weekend - Simba and Young Africans are in the CAF Champions League instead. The engine now rates all 22 Tanzanian clubs from 720 league matches, August 2023 to June 2026.

Czechia and Norway. Czech kick-off times had not been published, so they show as TBC. Czech ratings run to May 2025 and Norwegian ratings to May 2025, mid-season - both are more than a year old, and miss at least two transfer windows.

Ukraine. The Ukrainian Premier League schedule source was unavailable (HTTP 503) on every attempt, so no Ukrainian fixtures are included.

Second tiers. Italy's Serie B, Spain's Segunda, Germany's 2. Bundesliga and France's Ligue 2 play this weekend but are not loaded; English tiers 2 to 5 are, and appear above.

Top nations you have not included yet. Denmark, Switzerland and Poland are the strongest European football nations missing here - all have clubs in UEFA competitions every season, and all three leagues are available from the same open source used for Austria and Norway. Croatia and Serbia come next. Outside Europe, Brazil and Argentina are the two strongest leagues. For the CAF Champions League, **Tunisia and DR Congo matter most:** they are the two strongest federations in the African bridge (+0.50 and +0.43) but have no league loaded, so Esperance, TP Mazembe and their rivals can only be rated at federation level.

Clubs with no history in their division. Academico Viseu (Primeira Liga, no lower-division record, promoted-team prior used); Amedspor (Super Lig, no lower-division record, promoted-team prior used); Barrow (National League, rated from League Two); Beveren (Jupiler Pro League, no lower-division record, promoted-team prior used); Bolton (Championship, rated from League One); Bromley (League One, rated from League Two); Cambuur

(Eredivisie, no lower-division record, promoted-team prior used); Corum (Super Lig, no lower-division record, promoted-team prior used); Coventry (Premier League, rated from Championship); Den Haag (Eredivisie, no lower-division record, promoted-team prior used); Elversberg (Bundesliga, no lower-division record, promoted-team prior used); Erzurumspor (Super Lig, no lower-division record, promoted-team prior used); Exeter (League Two, rated from League One); Frosinone (Serie A, no lower-division record, promoted-team prior used); Harrogate (National League, rated from League Two); Hornchurch (National League, no lower-division record, promoted-team prior used); Hull (Premier League, rated from Championship); IK Start (Eliteserien, no lower-division record, promoted-team prior used); Iraklis (Super League Greece, no lower-division record, promoted-team prior used); Kalamata (Super League Greece, no lower-division record, promoted-team prior used); La Coruna (La Liga, no lower-division record, promoted-team prior used); Le Mans (Ligue 1, no lower-division record, promoted-team prior used); Leicester (League One, rated from Championship); Lincoln (Championship, rated from League One); Lommel SK (Jupiler Pro League, no lower-division record, promoted-team prior used); Malaga (La Liga, no lower-division record, promoted-team prior used); Milton Keynes Dons (League One, rated from League Two); Northampton (League Two, rated from League One); Notts County (League One, rated from League Two); Paderborn (Bundesliga, no lower-division record, promoted-team prior used); Rochdale (League Two, rated from National League); Rotherham (League Two, rated from League One); Santander (La Liga, no lower-division record, promoted-team prior used); Schalke 04 (Bundesliga, no lower-division record, promoted-team prior used); Sheffield Weds (League One, rated from Championship); Troyes (Ligue 1, no lower-division record, promoted-team prior used); West Ham (Championship, rated from Premier League); Wolves (Championship, rated from Premier League); Worthing (National League, no lower-division record, promoted-team prior used); York (League Two, rated from National League).

Not predicted. divisions not loaded, so not predicted: 2. Bundesliga (9), Ligue 2 (8), Serie B (10), Scottish Championship (4), Scottish League One (4), Scottish League Two (5), Segunda Division (10).

Reading the numbers. 1 / X / 2 are home win, draw and away win. O2.5 and U2.5 are over and under 2.5 total goals. BTTS is both teams to score. Score is the single most likely scoreline, which is often not the same as the most likely result: a favourite's win is spread across many scorelines while draws concentrate on 1-1.

Data. Results and prices from football-data.co.uk, free for personal use. Austrian, Norwegian, Czech, Tanzanian and other African results, and CAF and UEFA club competition results, from openfootball (public domain). Kick-off times are converted from UK time to EAT; fixtures from outside the feed were checked against published schedules.
