

Football predictions

Sun 30 Aug 2026 to Mon 31 Aug 2026 | 49 fixtures | generated 31 Aug 2026 21:35

How these were produced. A Dixon-Coles bivariate Poisson model fitted per league on 14,788 matches of results, weighted so recent games count more, blended with a second model fitted on shots on target. Where a closing price exists it is de-vigged and folded in at 90% weight. Every market below is read off one scoreline distribution per fixture, so no two numbers on a row can contradict each other.

What this is not. Over 5,948 walk-forward tests this engine scores a log-loss of 0.9568 against the bookmakers' closing consensus at 0.9558 - it matches the market, it does not beat it. Betting the model's disagreements with the price lost 12.2% of stakes over 3,761 historical bets. Treat these as calibrated estimates of how likely things are, not as tips with an edge.

Premier League (England) | 5

Time	Match	1	X	2	Pick	O2.5	U2.5	BTTS	Score	xG	Confidence

Where the model disagrees with the price

These are the fixtures where the model's own view - before any price was folded in - differs most from the bookmakers. They are shown because a disagreement is the interesting part of a forecast, not because they are good bets. Historically this exact filter lost money. The model column is the pure model; the price column is the de-vigged closing consensus.

Match	League	Selection	Model	Price implies	Difference	Decimal odds
Westerlo v Waregem	Jupiler Pro League	Home	49%	33%	+16 pts	2.79
AFC Wimbledon v Wigan	League One	Home	44%	31%	+14 pts	3.08
Levadeiakos v Panathinaikos	Super League Greece	Home	27%	17%	+11 pts	5.17
Nacional v Estrela	Primeira Liga	Home	51%	42%	+9 pts	2.28
Telstar v Ajax	Eredivisie	Home	27%	19%	+8 pts	4.73
Besiktas v Corum	Super Lig	Home	73%	65%	+8 pts	1.43
Amedspor v Trabzonspor	Super Lig	Away	55%	47%	+7 pts	1.93
Casa Pia v Moreirense	Primeira Liga	Away	38%	31%	+7 pts	3.07
Paris FC v Nice	Ligue 1	Away	33%	27%	+6 pts	3.57

A large difference usually means the model is missing something the market knows: an injury, a suspension, a rotated side, a manager change. It reads only results and shots.

Clubs with no history in their division. Amedspor (Super Lig, no lower-division record, promoted-team prior used); Cambuur (Eredivisie, no lower-division record, promoted-team prior used); Corum (Super Lig, no lower-division record, promoted-team prior used); Den Haag (Eredivisie, no lower-division record, promoted-team prior used); La Coruna (La Liga, no lower-division record, promoted-team prior used); Le Mans (Ligue 1, no lower-division record, promoted-team prior used); Malaga (La Liga, no lower-division record, promoted-team prior used); Schalke 04 (Bundesliga, no lower-division record, promoted-team prior used).

Not predicted. no data loaded for division(s) D2, F2, I2, SP2.

Reading the numbers. 1 / X / 2 are home win, draw and away win. O2.5 and U2.5 are over and under 2.5 total goals. BTTS is both teams to score. Score is the single most likely scoreline, which is often not the same as the most likely result: a favourite's win is spread across many scorelines while draws concentrate on 1-1.

Data. Results and prices from football-data.co.uk, free for personal use. Kick-off times as published in the fixtures feed.
